Trace Bailey and Draper Construction & Commercial Roofing, Inc. were honored with the following awards:

1. **Winner of Elastomeric Roof Coatings** category in collaboration with supplier Everest Systems, for their work on the **Life Church OKC** project (Edmond, OK). Products used include:
 - Everest HT (in three different colors as the final top coat)
 - Eco-Level
 - EverSeal

- EverCoat EC Base Coat
 - Everprime Metal
 - Utilization of Spray Foam at Ridge Assembly
2. **Runner Up** in the Roof SPF Under 40,000 ft.² category for the **Emporia Humanitarian Center** project. Products used include:
 - Evercell SPF
 - EverSeal
 - EverCoat EC Base Coat
 - EverCoat HT Top Coat
 3. **Runner Up** in the Roof SPF Over 40,000 ft.² category for the **Cloud County Community College** project. Products used include:
 - Everest HT Top Coat
 - Eco-level
 - EverSeal
 - EC Base Coat
 - EverSeal SPF

"We are thrilled to partner with Trace and Draper Construction & Commercial Roofing, Inc. for these projects," said Gabe Goepfert, Vice-President of Sales and Marketing at Everest Systems. "Trace and his team consistently solve problems and install extremely high-performing roof systems. Thanks to contractors like Draper, the foam and coating restoration industry continues to grow."

Everest Systems congratulates Trace Bailey and Draper Construction & Commercial Roofing, Inc. on their well-deserved recognition and looks forward to continued collaboration for future success.
